# Seminar Series

Dates: Wednesdays, 10 am – 12 pm

- 23 February (final allocation of assignments, 1 paper?)
- 2 March (2 papers)
- 9 March (2 papers)
- 14 March (2 papers)

Topic: papers on IAM development/application/criticism

- Presentation (~20 minutes)
- Discussion in the group (~20 minutes)

Course Wrap up

- 16 March, 10 am – 12 pm + 2 – 4 pm

# Assignment

- Modeling work based on South Africa model
  - ⇒ Add additional technologies
  - ⇒ Add additional commodities (e.g., water, materials, LCA)
  - ⇒ Develop scenarios
  - ⇒ Analyze results
- Commit code and data (incl. documentation) in repository
- Write a “half-paper” focusing on describing what has been done and results
- Finalize by 31 March

# Exam and Feedback

## Exam

- Still need to clarify dates, but likely in April

## Feedback

- Any comments, suggestions, issues are welcome
- Also send by e-mail

*Thank you very much for your attention!*
